The charge for installing a new service which includes excavation, backfill, tapping the main, laying the pipes, surfacing materials shall be as follows:

METER SIZE

As determined by Water Department

CHARGES

Actual cost of installation plus 15%

NEW USER FACILITY FEE (nuff)

- a. At the time that application is made for a new service, the applicant shall deposit with the City of Dover a New User Facility Fee in the amount of \$ 3500.00 per Equivalent User (ER) as determined by the Water Department. An Equivalent User is equal to the amount of water used by a typical single-family residence. A Typical ER is considered to be equal to 10,000 gallons of water per month.
- b. For new construction only, prior to first occupancy, NUFF may be paid in equal monthly installments not to exceed three (3) months provided the applicant executes a written contract with the City.

These water rates shall be reviewed annually by the Water Department and adjustments shall be made by action of the City Council.

The rates herein provided to be paid and collected, shall be effective for all collection periods beginning on or after the date of this resolution.
