Public Comment:

Resident Bill Strand had 3 comments regarding water usage and rates:

1. Thought moving to a once a year rate calculation based on usage could be an advantageous system for the city, for instance by eliminating seasonal revenue stream.
2. Bill will provide a written document of dates and events related to the changes in Bonners Ferry usage and rates.
3. He is concerned his public document requests have never been addressed.

Mayor requests continuation until such time more information is available.

Rob Tate Recommends continuation until April 11th at 7:00 pm

A motion was made by Councilwoman Shaha to continue the water usage issue Special Public Meeting to April 11, 2013 at 7:00 p.m. Councilwoman Travis seconded, all in favor, motion carried.
