Subject: City of Dover Drinking Water Facility Plan Addendum - DEQ Approval

Dear Ms. Brockway:

The Idaho Department of Environmental Quality (DEQ) received an addendum to the approved facility plan entitled *City of Dover, Final Water Facilities Plan*. The facility plan addendum was sealed and signed by Scott McNee, PE and submitted to DEQ on November 16, 2021. This addendum effectively modifies the selected alternative to Alternative 1 and amends Section 5 of the approved facility plan.

The facility plan addendum appears to address the requirements outlined in the Idaho Rules for Public Drinking Water Systems, IDAPA 58.01.08 and is hereby approved.

If there are any questions or comments regarding this project, please contact me at (208) 666-4611 or e-mail chris.westerman@deq.idaho.gov.

Regards,

A handwritten signature in blue ink that reads "Chris Westerman".

Chris Westerman
Water Quality Engineer
